## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest the combination of limitations as set forth in applicant's claims nor does the prior art of record disclose or suggest the specific structural arrangement of the novel structure claimed. In particular, the prior art does not disclose or suggest a door jig or a temporary door arrest/check device comprising, an arcuate bracket portion, the arcuate bracket portion comprising first and second legs extending from an intermediate extending location. A coil spring member surrounds the intermediate extending location of the bracket portion. A first tab end of the coil spring biases a location along the bracket portion, a second end of the coil spring defining an elongate extending stem portion. A collar is provided exhibiting a cam surface in abutting contact with an arcuate extending surface of the coil spring member. The cam surface defining a first circumferentially extending tapered location corresponding with a door closed position and a second cam lobe location corresponding with a second door open position. The coil spring member is seated within the extending tapered location to influence the door to remain in the door closed position, wherein rotation of the door causing the arcuate extending surface of the coil spring to rotate about the cam surface of the collar and into the cam lobe location, influencing the door in the door open position.

None of the prior art references disclose or suggest such a structural arrangement as recited in applicant's claims whether taken alone or used in combination thereof.

Therefore, the Examiner believes applicant's claims as presented are patentably distinct from the prior art of record and the general prior art relating to door arrest/checking devices useable in motor vehicles.

## CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
